Professional Summary

Skilled Shopware Developer with an MCA and specialized experience in backend architecture, e-commerce migrations, and automated systems. Expert in developing custom Shopware 6 extensions, optimizing database migrations, and engineering automated background processes (Cron Jobs) to enhance platform performance and reliability.

Technical Skills

- **Languages & Scripting:** PHP (Core), Python, JavaScript, HTML5, CSS3, TypeScript (Basic)
- **Frameworks & Libraries:** Shopware 6, Django, Vue.js, Tailwind CSS, REST APIs
- **Databases & Platforms:** MySQL, Git, ERP Platforms (Personio, Wix, Magento)
- **Core Competencies:** Extension Development, Data Migration, ERP Sync, Cron Job Automation, Payment Gateways

Professional Experience

Shopware Developer

Dec 2023 - Jan 2026

Dolphin Web Solutions Pvt. Ltd.

Ahmedabad

- **Extension Development:** Designed and published multiple custom Shopware 6 extensions including Product Variants Matrix, Advanced Import, Tax Switcher, and Swish Payments.
- **Live Project:** Developed the [Product Question and FAQ extension](#) currently live on the Shopware Store.
- **Data Migration:** Worked on a major Magento 1 to Shopware 6 migration; engineered custom scripts for seamless transfer of products, customers, and historical order data.
- **Automation & Crons:** Built robust “midnight cron” jobs to handle high-load background tasks and data synchronization, reducing server strain during peak hours.
- **Integrations:** Developed custom REST APIs for ERP data synchronization and implemented complex customer cart import logic to ensure a seamless user experience during platform transitions.

Projects

Real Estate Broker System

Feb 2022 – March 2024

Role: Backend Developer & Co-Developer

- Developed a custom real estate platform using Core PHP to manage property listings and broker-client communications.
- Integrated secure online payment gateways and developed responsive front-end components.

E-Commerce Website

June 2021 – Sep 2021

Role: Full Stack Developer

- Built a full-stack e-commerce application using Python and Django featuring secure checkout and shopping cart logic.

Frontend Web Development Portfolio

Jan 2023 – Dec 2023

Role: Frontend Developer

- **UI Clones:** Engineered high-fidelity, responsive clones of Netflix, Facebook, and Microsoft using Tailwind CSS to master modern CSS architectures and grid layouts.
- **Portfolio Deployment:** Designed and deployed a personal portfolio website via GitHub Pages, showcasing project documentation and technical proficiency.
- **Optimization:** Focused on cross-browser compatibility and optimized asset loading for enhanced user experience (UX).

Education

Master of Computer Applications (MCA)

2022 – 2024

Dharmsinh Desai University, Nadiad

GPA: 6.97

Certifications

- **Python Fundamentals, Django (Hindi), UX/UI, & Python Projects** Jan 2023 – Dec 2023
- **Data Science, ML, Data Analysis, Python & R** June 2022
